SUBJECT INDEX

Acetazolamide–copper complexes,
Thermal studies on sulphonamide derivative complexes. Part 1. Thermal behaviour of acetazolamide–copper complexes 321
2-Acetylpyridine hydrazone,
Variation of product identity as a function of metal ion: ligand reaction ratio, stereochemical studies and thermal investigation of Mn(II), Fe(III), Ni(II), Cu(II), Cd(II) and Hg(II) complexes of 2-acetylpyridine hydrazone 153
Air layer,
Modelling of the process is DC experiments by considering the layer of air between the calorimeter and holder 291
Al_2O_3,
Solid–solid interactions in the MoO_3–Al_2O_3 system 175
Ammonium,
Characterization of mixed rare earth ammonium tripolyphosphates $NH_4LnHP_3O_{10}$ (Ln = Nd, Ho, Er) 241
Anthracene derivatives,
Electrical and spectrophotometric properties of charge-transfer complexes of some anthracene derivatives 57

Benzene derivatives,
Molecular alloys in the series of *para* disubstituted benzene derivatives. Part III. The *para*-bromochlorobenzene–*para*-dibromo-benzene system 273
Thermodynamic propertis of the positional isomers of disubstituted benzenes in the condensed phase 261
Binary systems,
Non-isothermal derivatographic study of MoO_3–C and Co_3O_4–C binary systems 199
2,2′-Bipyridine
Solvent effects on the dissociation of 2,2′-bipyridine and 1,10-phenanthroline in aqueous binary mixtures of 2-methoxyethanol and 1,2-dimethoxyethane 41
Bound water,
Dehydration mechanism of bound water in sepiolite 127
para-Bromochlorobenzene
Molecular alloys in the series of *para* disubstituted benzene derivatives. Part III. The *para*-bromochlorobenzene–*para*-dibromobenzene system 273
Butobarbital,
Thermoanalytical study of psychotropic substances. VI. Butobarbital 17

Calibration,
Biological thermodynamic data for the calibration of differential scanning calorimeters. Heat capacity data on the unfolding transition of lysozyme in solution 71
Calorimeters,
Characterization of calorimeters by direct calculation of the recursion equation coefficients 145
Carbon,
Non-isothermal derivatographic study of MoO_3–C and Co_3O_4–C binary systems 199
Charge-transfer complexes,
Electrical and spectrophotometric properties of charge-transfer complexes of some anthracene derivatives 57
Cl_2,
Cl_2–HF(g): thermodynamics of the system with two-fold isomerism 101
Co_3O_4,
Non-isothermal derivatographic study of MoO_3–C and Co_3O_4–C binary systems 199
Cobalt,
Thermochromism of the cobalt(II)–isoniazid complex in the solid state 65
Condensed phase,
Thermodynamic properties of the positional isomers of disubstituted benzenes in the condensed phase 261
CVD diagrams,
Calculation of the Gibbs free energy of formation of titanium carbide TiC_y by the sublattice method. Application to the determination of chemical vapour deposition diagrams 1

Date stones,
The thermogravimetry and pyrolysis of date stones 283
DC experiments,
Modelling of the process in DC experiments by considering the layer of air between the calorimeter and holder 291

Decomposition,
A differential scanning calorimetric study of the decomposition of some lanthanide nitrates 303
Dehydration,
Dehydration mechanism of bound water in sepiolite 127 Kinetics of dehydration reactions—a comparison between isothermal and non-isothermal studies, 331
para-Dibromobenzene,
Molecular alloys in the series of *para* disubstituted benzene derivatives. Part III. The *para*-bromochlorobenzene–*para*-dibromobenzene system 273
1,2-Dimethoyxethane,
Solvent effects on the dissociation of 2,2′-bipyridine and 1,10-phenanthroline in aqueous binary mixtures of 2-methoxyethanol and 1,2-dimethoxyethane, 41
Dimethylacetamide–water,
Single ion free energies of some monovalent ions in mixed dimethylacetamide–water solutions using the asymmetric Ph_4AsBPh_4 assumption 313

Electrical properties,
Electrical and spectrophotometric properties of charge-transfer complexes of some anthracene derivatives 57
Enthalpy,
Enthalpy of free radical polymerization of maleic anhydride 93
Enthalpy of maleic anhydride polymerization in the presence of poly-4-vinylpyridine 347

Free radical polymerization,
Enthalpy of free radical polymerization of maleic anhydride 93
Frequency of vibrations,
A correlation between the ν_4 frequency of vibrations of metal nitrates and their temperature of thermal decomposition 139

$GdBa_2Cu_3O_{7-x}$,
Thermoanalytical characterization (DTA and TG) of $RBa_2Cu_3O_{7-x}$ (R = Y, Gd, Nd) superconductors 109
Gibbs free energy of formation
Calculation of the Gibbs free energy of formation of titanium carbide TiC_Y by the sublattice method. Application to the determination of chemical vapour deposition diagrams 1

Heat capacity,
Biological thermodynamic data for the calibration of differential scanning calorimeters. Heat capacity data on the unfolding transition of lysozyme in solution 71
HF,
Cl_2–HF(g): thermodynamics of the system with two-fold isomerism 101

Iron,
The ion–neodymium (Fe–Nd) phase diagram 205
Isomerism,
Cl_2–HF(g): thermodynamics of the system with two-fold isomerism 101
Isoniazid,
Thermochromism of the cobalt(II)–isoniazid complex in the solid state 65
Isothermal conditions,
Some critical considerations concerning the JMAYK equation in isothermal and non-isothermal conditions 231
Isothermal studies,
Kinetics of dehydration reactions—a comparison between isothermal and non-isothermal studies 331

JMAYK equation,
Some critical considerations concerning the JMAYK equation in isothermal and non-isothermal conditions 231

Khellin,
On polymorphism of khellin 217
Kinetic analysis,
Applicability of the master plots in kinetic analysis of non-isothermal data 377
Kinetics,
The kinetics of the oxidative degradation of poly(aryl-ether-ether-ketone) (PEEK) 189

Lanthanide nitrates,
A differential scanning calorimetric study of the decomposition of some lanthanide nitrates 303
Ligand reaction ratio,
Variation of product identity as a function of metal ion: ligand reaction ratio, stereochemical studies and thermal investigation of Mn(II), Fe(III), Ni(II), Cu(II), Cd(II) and Hg(II) complexes of 2-acetylpyridine hydrazone 153
L-Lysine monohydrochloride,
Determination of stability constants and thermodynamic functions of L-lysine monohydrochloride with Sm(III), Bi(III) and Gd(III) metal ions 401
Lysozyme,
Biological thermodynamic data for the calibration of differential scanning calorime-

ters. Heat capacity data on the unfolding transition of lysozyme in solution 71

Maleic anhydride,
Enthalpy of free radical polymerization of maleic anhydride 93
Maleic anhydride polymerization,
Enthalpy of maleic anhydride polymerization in the presence of poly-4-vinylpyridine 347
Malonic acid,
The thermal, spectral and magnetic studies of malonic acid compounds of some transition metal ions 353
Master plots,
Applicability of the master plots in kinetic analysis of non-isothermal data 377
Metal ion complexes,
Variation of product identity as a function of metal ion: ligand reaction ratio, stereochemical studies and thermal investigation of Mn(II), Fe(III), Ni(II), Cu(II), Cd(II) and Hg(II) complexes of 2-acetylpyridine hydrazone 153
Metal nitrates,
A correlation between the ν_4 frequency of vibrations of metal nitrates and their temperature of thermal decomposition 139
2-Methoxyethanol,
Solvent effects on the dissociation of 2,2′-bipyridine and 1,10-phenanthroline in aqueous binary mixtures of 2-methoxyethanol and 1,2-dimethoxyethane 41
Microcalorimetry,
A microcalorimetric method using a minimal quantity of reactant to determine protein–ligand binding parameters 119
Molecular alloys,
Molecular alloys in the series of *para* disubstituted benzene derivatives. Part III. The *para*-bromochlorobenzene–*para*-dibromobenzene system 273
Monovalent ions,
Single ion free energies of some monovalent ions in mixed dimethylacetamide–water solutions using the asymmetric Ph_4AsBPh_4 assumption 313
MoO_3,
Non-isothermal derivatographic study of MoO_3–C and Co_3O_4–C binary systems 199
Solid–solid interactions in the MoO_3–Al_2O_3 system 175

$NdBa_2Cu_3O_{7-x}$,
Thermoanalytical characterization (DTA and TG) of $RBa_2Cu_3O_{7-x}$ (R = Y, Gd, Nd) superconductors 109

Neodymium,
The iron–neodymium (Fe–Nd) phase diagram 205
$NH_4LnHP_3O_{10}$,
Characterization of mixed rare earth ammonium tripolyphosphates $NH_4LnHP_3O_{10}$ (Ln = Nd, Ho, Er) 241
Nickel oxalates,
The thermal decomposition of nickel oxalates doped with traces of other metal ions 251
Non-isothermal conditions,
Some critical considerations concerning the JMAYK equation in isothermal and non-isothermal conditions 231
Non-isothermal data,
Applicability of the master plots in kinetic analysis of non-isothermal data 377
Non-isothermal studies,
Kinetics of dehydration reactions—a comparison between isothermal and non-isothermal studies 331

Oxidative degradation,
The kinetics of the oxidative degradation of poly(aryl-ether-ether-ketone) (PEEK) 189

Ph_4AsBPh_4 assumption,
Single ion free energies of some monovalent ions in mixed dimethylacetamide–water solutions using the asymmetric Ph_4AsBPh_4 assumption 313
Phase diagram,
The iron–neodymium (Fe–Nd) phase diagram 205
1,10-Phenanthroline,
Solvent effects on the dissociation of 2,2′-bipyridine and 1,10-phenanthroline in aqueous binary mixtures of 2-methoxyethanol and 1,2-dimethoxyethane 41
Plastics,
A round-robin test of the softening temperature of plastics by thermomechanical analysis 387
Poly(aryl-ether-ether-ketone),
The kinetics of the oxidative degradation of poly(aryl-ether-ether-ketone) (PEEK) 189
Poly-4-vinylpyridine,
Enthalpy of maleic anhydride polymerization in the presence of poly-4-vinylpyridine 347
Polymerization,
Enthalpy of free radical polymerization of maleic anhydride 93
Polymorphism,
On polymorphism of khellin 217
Postional isomers,
Thermodynamic properties of the positional

isomers of disubstituted benzenes in the condensed phase 261
Protein–ligand binding parameters,
A microcalorimetric method using a minimal quantity of reactant to determine protein–ligand binding parameters 119
Psychotropic substances,
Thermoanalytical study of psychotropic substances. VI. Butobarbital 17
Pyrolysis,
The thermogravimetry and pyrolysis of date stones 283

Rare earths,
Characterization of mixed rare earth ammonium polyphosphates $NH_4LnHP_3O_{10}$ (Ln = Nd, Ho, Er) 241
Recursion equation coefficients,
Characterization of calorimeters by direct calculation of the recursion equation coefficients 145
Round-robin test,
A round-robin test of the softening temperature of plastics by thermomechanical analysis 387

Sepiolite,
Dehydration mechanism of bound water in sepiolite 127
Single ion free energies,
Single ion free energies of some monovalent ions in mixed dimethylacetamide–water solutions using the asymmetric Ph_4AsBPh_4 assumption 313
Softening temperature,
A round-robin test of the softening temperature of plastics by thermomechanical analysis 387
Solid–solid interactions,
Solid–solid interactions in the MoO_3–Al_2O_3 system 175
Solvent effects,
Solvent effects on the dissociation of 2,2′-bipyridine and 1,10-phenanthroline in aqueous binary mixtures of 2-methoxyethanol and 1,2-dimethoxyethane 41
Spectrophotometric properties,
Electrical and spectrophotometric properties of charge-transfer complexes of some anthracene derivatives 57
Stability constants,
Determination of stability constants and thermodynamic functions of L-lysine monohydrochloride with Sm(III), Bi(III) and Gd(III) metal ions 401
Stereochemical studies,
Variation of product identity as a function of metal ion: ligand reaction ratio, stereochemical studies and thermal investigation of Mn(II), Fe(III), Ni(II), Cu(II), Cd(II) and Hg(II) complexes of 2-acetylpyridine hydrazone 153
Sublattice method,
Calculation of the Gibbs free energy of formation of titanium carbide TiC_γ by the sublattice method. Application to the determination of chemical vapour deposition diagrams 1
Sulphonamide derivative complexes,
Thermal studies on sulphonamide derivative complexes. Part 1. Thermal behaviour of acetazolamide–copper complexes 321
Superconductors,
Thermoanalytical characterization (DTA and TG) of $RBa_2Cu_3O_{7-x}$ (R = Y, Gd, Nd) superconductors 109

Temperature-programmed desorption,
XPS and TPD probe techniques for the study of $LaNiO_3$ perovskite oxide 361
Thermal decomposition,
A correlation between the ν_4 frequency of vibrations of metal nitrates and their temperature of thermal decomposition 139
The thermal decomposition of nickel oxalates doped with traces of other metal ions 251
Thermochromism,
Thermochromism of the cobalt(II)–isoniazid complex in the solid state 65
Thermodynamic functions,
Determination of stability constants and thermodynamic functions of L-lysine monohydrochloride with Sm(III) Bi(III) and Gd(III) metal ions 401
Thermogravimetry,
The thermogravimetry and pyrolysis of date stones 283
Thermomechanical analysis,
A round-robin test of the softening temperature of plastics by thermomechanical analysis 387
Titanium carbide,
Calculation of the Gibbs free energy of formation of titanium carbide TiC_γ by the sublattice method. Application to the determination of chemical vapour deposition diagrams 1
Transition metal ions,
The thermal, spectral and magnetic studies of malonic acid compounds of some transition metal ions 353

Tripolyphosphates,
Characterization of mixed rare earth ammonium tripolyphosphates $NH_4LnHP_3O_{10}$ (Ln = Nd, Ho, Er) 241
Two-fold isomerism,
Cl_2–HF(g): thermodynamics of the system with two-fold isomerism 101
X-ray photoelectron spectroscopy,
XPS and TPD probe techniques for the study of $LaNiO_3$ perovskite oxide 361
$YBa_2Cu_3O_{7-x}$,
Thermoanalytical characterization (DTA and TG) of $RBa_2Cu_3O_{7-x}$ (R = Y, Gd, Nd) superconductors 109
